Mayor Andy Berke

July 31, 2014

**Ms. Daisy Madison, Administrator
Finance Department
101 East 11th Street, Suite 101
Chattanooga, TN 37402**

**Subject: Req. 99381 – Socrata Open Data Portal & GovStat Annual Support & Maintenance –
Finance Department**

Dear Ms. Madison:

Council approval is recommended for the purchase of annual Socrata Open Data Portal and GovStat Annual Support and Maintenance Services as needed by the Office of Performance Management Division of the Finance Department. This purchase will be in the amount of \$148,734 and will cover the period July 1, 2014 thru June 30, 2015.

This sole source purchase from Socrata is required to support the proprietary Open Data Portal utilized by the Office of Performance Management Division of the Finance Department.

TCA 6-56-303.2 allows for this sole source purchase exempted from the usual advertising and bidding requirements.

Respectfully yours,

A handwritten signature in blue ink, appearing to read "David Carmody".

Standard Conditions

1. By signing this Order Form, you are offering to purchase the products and services listed above. Your offer to purchase becomes a binding commitment upon acceptance by Socrata, and is not subject to the issuance of any further purchase orders, confirmations or other events. Socrata Products and Services descriptions can be viewed in Appendix 1
2. Socrata Standard Terms and Conditions apply, and may be viewed in Appendix 2
3. The shipping address listed above will be used to determine the appropriate taxing jurisdiction of the products and services purchased
4. Special conditions override standard conditions in the event of an inconsistency

Special Conditions

- The term of this Agreement is for an initial period of 7/1/2014 – 6/30/2015.
- Beginning 7/1/2015, the Agreement will automatically renew for a successive 12 month period unless either party gives notice within 60 days of the end of the then-current term. Each renewal will follow the annual pricing schedule as indicated below.
 - This order form represents reserved pricing for the City of Chattanooga in support of being an early adopter for Socrata Open Data Portal & GovStat. Socrata is proposing continued reserved pricing for the next three 12-month service periods as follows:
 - 7/1/2015 – 6/30/2016: \$154,683
 - 7/1/2016 – 6/30/2017: \$160,870
 - 7/1/2017 – 6/30/2018: \$167,305

What Makes Socrata Unique?

Sole Source Support Justification

Cloud Delivery

- Socrata is a cloud-based, Software as a Service (SaaS) offering, delivered as a complete, turnkey, configurable solution that can be provisioned in minutes

Data Publishing and Management

- Only Open Data Platform that streamlines and automates data publishing using data file uploads (csv, xls, xlsx), ad-hoc online dataset creation, FTP-based automatic publishing, direct-to-cloud data import, and supported third-part data extraction, transformation and loading (ETL) tools like Pentaho and Safe Software (FME)
- Only Open Data Platform that enables near real-time publishing of data using a robust write API which supports append, replace and upsert (update and insert) operations.
- Only Open Data Platform with configurable data publishing workflow including routing and approval; and a unique “explicit publishing” model that creates a private, “pre-published” copy of a dataset for a data owner to maintain and then explicitly publish when it meets his or her satisfaction.
- Only Open Data Platform that allows publishers to create multiple views on the same dataset, with different access and security settings for each view, allowing them to expose subsets of the data to specific named audiences.
- Only Open Data platform with real-time usage analytics allowing data publishers and site administrators to measure data consumption, distribution and user engagement.

Support for Geospatial Data

- Only Open Data Platform that automatically creates interactive maps from shapefiles and KML/KMZ files to turn GIS data into information everyone can use.
- Only Open Data Platform that offers a built-in integration with Esri ArcGis 10.x
- Only Open Data Platform that allows publishers and users to create map mashups by superimposing layers from different datasets on the same map.

Consumer-friendly End-user Experience

- Only Open Data Platform that enables publishers and end-users to create data visualizations using an intuitive library of maps and charts, save them, and share them with others.
- Only Open Data Platform that enables end-users to explore and analyze the data online with sorting, filtering, faceted-browsing, and data roll-ups.
- Only Open Data Platform that indexes every row of data in every dataset to enable deep keyword search at the catalog level.
- Only Open Data platform that enables end-users to embed the visualizations they create on external websites, using an intuitive widget similar to Youtube. This not only stimulates participation and collaboration, but also amplifies the reach of the agency's data.
- Only Open Data platform with the ability to allow end users to automatically download any dataset in 8 standard open formats.

Ecosystem Enablement

- Only Open Data platform that automatically creates an open, standards-based API for every dataset with the ability for data publishers to create multiple classes of developer access including: moderately throttled anonymous access; lightly throttled authenticated access; and unthrottled, authenticated access.
- Only Open Data platform that allows data owners to create custom APIs with full developer documentation, code samples and interactive test console – in minutes and without writing a single line of code.
- Only Open Data Platform that features 1-click federation which allows two organizations to share their data with each other, or create a converged data catalog with other participants (e.g. neighboring cities)

Operational Excellence and Security

- Only Open Data Platform that has passed the Federal Information Security Management Act of 2002 (FISMA)
- Only Open Data Platform proven to scale to tens of Terabytes of data served, every month.
- Only Open Data Platform that offers 99.9% availability and two geo-redundant data centers.
- Only platform that offers 24x7 support with enterprise-class SLAs.

- Only company in the space with a dedicated client services organization focused entirely on customer success.

Business Value beyond Open Data

- Support for Performance Management: Only Platform that can readily support an Open Data Program and a Performance Measurement and Reporting program, with configurable goal setting capabilities, interactive internal and external dashboards, and friendly drag-and-drop report creation.
- Data Collection: Only Platform that offers configurable data capture and collection apps to support field inspection, and crowd-sourcing applications.
- Only Platform that offers a full transaction database in the cloud which allows customers to use Socrata as their primary data store and eliminate redundant data silos and associated infrastructure.
- Only Platform that offers a rich enough data discovery and visualization experience to eliminate the need for up to 80% of Business Intelligence licenses for basic, read-only access to data.
- For federal agencies, Socrata is offered exclusively through a company which is a Service Disabled Veteran Owned, HUB Zone Certified small business.

City of Chattanooga

Mayor Andy Berke

July 31, 2014

Mr. Cary Bohannon
Director of General Services
General Services Department
274 East 10th Street
Chattanooga, TN 37402

**Subject: R0026704– Digital Copier Rental for Oce’ “IM” Models – City Wide –
General Services Department**

Dear Mr. Bohannon:

Council approval is recommended to issue a blanket contract for Digital Copier Rental for Oce’ “IM” Models, City Wide, General Services Department. The contract will be twelve (12) using the State of Tennessee contract number SWC404-20902 with the option for two (2) additional twelve (12) month terms for an estimated annual amount of \$150,000. A copy of the State contract is attached.

I recommend approval of this blanket contract to Canon Solutions America based on the lowest bid meeting the specifications for the City of Chattanooga.

Respectfully yours,

**David Carmody
Purchasing Manager**

City of Chattanooga

Mayor Andy Berke

July 28, 2014

Mr. Lee Norris, Administrator
Public Works Department
Development Resource Center
1250 Market Street, Suite 2100
Chattanooga TN, 37402

Subject: R76488 – Metal Pipe - Public Works Department

Dear Mr. Norris;

Council approval is recommended to extend blanket contract 521633 for the purchase of Metal Pipe for an additional year. The estimated annual expenditure under this contract is \$41,000.00.

The invitation to bid was sent to five (5) vendors as well as formally advertised. Three (3) bids were received. A spreadsheet is attached which shows the bids received.

I recommend extending this contract to Piping Supply Company, based on the lowest bid meeting the specifications for the City of Chattanooga.

Respectfully yours,

David Carmody
Purchasing Agent
